

EEEA

Formerly Hope Beyond Borders

Steve Wilson
Founder / CEO

For over 20 years our leadership has advanced educational equity in Coatesville, Pennsylvania, and other parts of the world, ensuring thousands of bright and resilient students have the opportunities they need to flourish.

Today, our Center for Educational Equity provides workshops and seminars on organizational growth and educational equity, our leadership coaches equip educational and organizational leaders and teams, and our alliance of community-led educational initiatives provides thousands of students with cradle to career academic, social-emotional, and spiritual opportunities.

Our mission is the same and now we've changed our name to express more clearly who we are to the communities we collaborate with, to those who will join the cause, and to you, our partners that provide for the educational needs of the children, youth, and leaders throughout our alliance.

Three words best summarize our cause – education, equity, and alliance.

Education – High-quality in-school and out-of-school education is critical for students to one day make a living wage, provide for loved ones, and be included in all sectors of society.

Equity – When every person, regardless of social indicators like race, gender, zip code, or economic status, can access what they need to flourish.

Alliance – Leaders and programs joined together to advance a cause more effectively.

Educational Equity Alliance

Our name has changed, but our mission and values remain the same and guide our unique approach to ensure positive outcomes for the students and leaders in our alliance.

Mission

EEA is an alliance of **educational initiatives** and thought leaders committed to seeing **children and youth flourish**.

Cradle to Career

We value long-term commitments with children, youth, and leaders to ensure they have every opportunity to flourish.

Faith in Action

We value faith that promotes hope, reconciliation, cultural humility, and justice.

Equity for Impact

We value the redistribution of resources into the capable hands of the community leaders in our alliance.

Different Together

We value diversity, equity, and inclusion throughout our alliance to reflect and equip the children and youth we serve.

Our Center for Educational Equity provides workshops and seminars on organizational growth and racial and educational equity to alliance members, schools, community organizations, and churches seeking to improve educational outcomes for the children and youth who need it most.

Our executive coaches and consultants equip educational and organizational leaders and teams, helping them to maximize organizational capacity and resiliency.

**“I appreciate the leadership of EEA because they always look after the initiatives in our alliance and look after you like family.”
-Moses Kollie, E.D.**

Founded by leaders and community organizers who profess a Christian faith, we are rooted in an expansive love that values the diversity, dignity, and God-given possibility of all people. We are devoted to local and international partnerships of a wide range of faith and no-faith convictions and traditions, all in an effort to see children and youth flourish in a more just and equitable world.

Each initiative in our alliance is establishing programs from early childhood through high school based on the needs of children and youth in their community, and often include a combination of preschools, primary school, trade school, after-school tutoring and enrichment programs, teacher stipends, athletic programs, summer camps, and entrepreneurial training.

Multiple programs currently operate in Pennsylvania, Liberia, and Zambia – and expanding!

“This program really helped to empower students academically at each grade level and prepare them for college or trade school!” - Parent

Become an ally for educational equity.

Volunteer on a committee or at one of our local programs.

Donate today at educationalequityalliance.org/donate

Hold a Soap For Hope Fundraiser to raise funds for your school, team, club, or organization. Soap for Hope Fundraising is operated by professional soap makers and youth entrepreneurs in Coatesville, PA, and 100% of Soap For Hope proceeds go to empowering children and youth in our alliance.

Sign up for a youth soapmaking workshop to make Soap For Hope products, learn about educational equity, and help sell Soap! Learn more at:

www.soapforhopefundraising.org

Become a Student Ally

Make your impact personal by donating \$32/month toward a student's school or program tuition. Send notes of encouragement and receive personal updates on the student's progress and accomplishments.
